

Save Money With Our New Healthy Pet Club!

Just like you, our team at Kingston love to see happy, healthy pets. We are here to help you achieve this by offering your cat, dog or rabbit life-long excellent preventative healthcare in the form of vaccinations, health examinations, flea and worm treatments. We appreciate that sometimes it's difficult to remember the correct timings for all of this and also to budget for it.

Our new Healthy Pet Club is designed to help you with all this – and also helps by saving you money! As a club member, your pet will receive the best preventative healthcare available with an annual discount of 15%, and to make it even easier you can pay by convenient monthly direct debits, in the same way you may budget for your utility bills.

As a Healthy Pet Club member, you will also be entitled to the same 15% discount on other services such as neutering, routine dental care, microchipping, further vaccinations such as kennel cough and rabies and a 15% discount for an initial consultation with the vet. Club members will also have access to our qualified nursing team, who help with administering your flea and worm control products, give advice on health, diet and nutrition and assist you with any concerns you may have with your pet.

We are launching our club on Wednesday 8th June and would love you to come along and hear all about it and share a drink with us – we all also give you a behind the scenes tour of the practice if you would like to see it. Just call us on 01646 622943 and we'll register you as a guest.

We look forward to helping you with a lifetime of care for your pets and welcome them to new Healthy Pet Club!!
